

Vano Papunidze

Full Stack Developer

Profile

I'm a dedicated Full-stack developer who is passionate about crafting exceptional web experiences. My journey into web development includes successfully completing the career acceleration program where I collaborated closely with designers, backend developers, and other frontend developers. This experience has not only honed my technical skills but also given me invaluable teamwork and project collaboration experience. I bring a powerful combination of knowledge and passion to every project I undertake. My love for frontend development is matched only by my dedication to delivering top-notch results. With my extensive knowledge, I'm prepared to tackle complex challenges and push the boundaries of what's possible. I have more experience on the Frontend side, but I also possess a significant depth of knowledge in Backend development.
